Environmental precautions
and clean-up methods:**

Attention! Corrosive material. Put on appropriate personal protective equipment (see Section 8.).
Clean-up methods - large spillage. Eliminate all ignition sources. Prevent product from entering drains.
Material is toxic to fish. Do not discharge into lakes, streams, ponds, or public water unless in accordance with an NPDES permit. Oxidizing material, do not allow to dry on material which may burn.
Contamination with organic matter or other chemicals will start a chemical reaction and generate heat, hazardous gas, possible fire and explosion. Use clean equipment. Absorb spill with inert material (e.g. dry sand or earth), then place in a chemical waste container. Use a water rinse for final clean-up.
