

# Safety Data Sheet

According to Regulation (EC) No 1907/2006

# Clax Bright bleach 44A1

**Revision:** 2021-03-28 **Version:** 09.2

# SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Trade name: Clax Bright bleach 44A1

UFI: UGC4-F0RF-W00U-H30K

1.2 Relevant identified uses of the substance or mixture and uses advised against

Product use: Laundry aid.

For professional use only.

Uses advised against: Uses other than those identified are not recommended.

SWED - Sector-specific worker exposure description :

AISE\_SWED\_PW\_1\_1 AISE\_SWED\_PW\_8a\_2 AISE\_SWED\_PW\_1\_1

1.3 Details of the supplier of the safety data sheet

Diversey Europe Operations BV, Maarssenbroeksedijk 2, 3542DN Utrecht, The Netherlands

**Contact details** 

Diversey Ltd

Weston Favell Centre, Northampton NN3 8PD, United Kingdom

Tel: 01604 405311, Fax: 01604 406809

Regulatory Email: customerservice.uk@diversey.com

1.4 Emergency telephone number

Seek medical advice (show the label or safety data sheet where possible)

For medical or environmental emergency only:

call 0800 052 0185

# **SECTION 2: Hazards identification**

### 2.1 Classification of the substance or mixture

Eye Dam. 1 (H318)

# 2.2 Label elements

Signal word: Danger.

Contains 6-(phthalimido)peroxyhexanoic acid (Phthalimidoperoxycaproic Acid)

# Hazard statements:

H318 - Causes serious eye damage.

### Precautionary statements:

P280 - Wear eye or face protection.

P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P310 - Immediately call a POISON CENTRE, doctor or physician.

### 2.3 Other hazards

No other hazards known.

# **SECTION 3: Composition/information on ingredients**

### 3.2 Mixtures

| Ingredient(s)                      | EC number | CAS number  | REACH number     | Classification         | Notes | Weight  |
|------------------------------------|-----------|-------------|------------------|------------------------|-------|---------|
|                                    |           |             |                  |                        |       | percent |
| 6-(phthalimido)peroxyhexanoic acid | 410-850-8 | 128275-31-0 | [6]              | Org. Perox. D (H242)   |       | 10-20   |
|                                    |           |             |                  | Eye Dam. 1 (H318)      |       |         |
|                                    |           |             |                  | Aquatic Acute 1 (H400) |       |         |
| HEDP sodium salts                  | 249-559-4 | 29329-71-3  | 01-2119510382-52 | Acute Tox. 4 (H302)    |       | 1-3     |
|                                    |           |             |                  | Eye Irrit. 2 (H319)    |       |         |
|                                    |           |             |                  | Met. Corr. 1 (H290)    |       |         |

### Specific concentration limits

6-(phthalimido)peroxyhexanoic acid:
• Org. Perox. D (H242) >= 20% > Org. Perox. E (H242) >= 5%

Workplace exposure limit(s), if available, are listed in subsection 8.1.

ATE, if available, are listed in section 11.

[6] Exempted: biocidal active. See Article 15a of Regulation (EC) No 1907/2006. For the full text of the H and EUH phrases mentioned in this Section, see Section 16...

# **SECTION 4: First aid measures**

4.1 Description of first aid measures

Inhalation: Get medical attention or advice if you feel unwell.

Skin contact: Wash skin with plenty of lukewarm, gently flowing water. If skin irritation occurs: Get medical advice

or attention.

Hold eyelids apart and flush eyes with plenty of lukewarm water for at least 15 minutes. Remove Eye contact:

contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTRE,

doctor or physician.

Rinse mouth. Immediately drink 1 glass of water. Never give anything by mouth to an unconscious Ingestion:

person. Get medical attention or advice if you feel unwell.

Consider personal protective equipment as indicated in subsection 8.2. Self-protection of first aider:

4.2 Most important symptoms and effects, both acute and delayed

Inhalation: No known effects or symptoms in normal use. No known effects or symptoms in normal use. Skin contact: Eye contact: Causes severe or permanent damage. Ingestion: No known effects or symptoms in normal use.

### 4.3 Indication of any immediate medical attention and special treatment needed

No information available on clinical testing and medical monitoring. Specific toxicological information on substances, if available, can be found in section 11

# **SECTION 5: Firefighting measures**

### 5.1 Extinguishing media

Carbon dioxide. Dry powder. Water spray jet. Fight larger fires with water spray jet or alcohol-resistant foam.

# 5.2 Special hazards arising from the substance or mixture

No special hazards known.

### 5.3 Advice for firefighters

As in any fire, wear self contained breathing apparatus and suitable protective clothing including gloves and eye/face protection.

# SECTION 6: Accidental release measures

# 6.1 Personal precautions, protective equipment and emergency procedures

Wear eye/face protection.

# 6.2 Environmental precautions

Dilute with plenty of water. Do not allow to enter drainage system, surface or ground water.

# 6.3 Methods and material for containment and cleaning up

Dyke to collect large liquid spills. Absorb with liquid-binding material (sand, diatomite, universal binders, sawdust). Do not place spilled materials back into the original container. Collect in closed and suitable containers for disposal.

### 6.4 Reference to other sections

For personal protective equipment see subsection 8.2. For disposal considerations see section 13.

# SECTION 7: Handling and storage

# 7.1 Precautions for safe handling

Measures to prevent fire and explosions:

No special precautions required.

### Measures required to protect the environment:

For environmental exposure controls see subsection 8.2.

### Advices on general occupational hygiene:

Handle in accordance with good industrial hygiene and safety practice. Keep away from food, drink and animal feeding stuffs. Do not mix with other products unless adviced by Diversey. Wash hands before breaks and at the end of workday. Avoid contact with eyes. Use only with adequate ventilation. See chapter 8.2, Exposure controls / Personal protection.

### 7.2 Conditions for safe storage, including any incompatibilities

Store in accordance with local and national regulations. Store in a closed container. Keep only in original packaging.

For conditions to avoid see subsection 10.4. For incompatible materials see subsection 10.5.

### 7.3 Specific end use(s)

No specific advice for end use available.

# SECTION 8: Exposure controls/personal protection

### 8.1 Control parameters Workplace exposure limits

Air limit values, if available:

Biological limit values, if available:

## Recommended monitoring procedures, if available:

Additional exposure limits under the conditions of use, if available:

# **DNEL/DMEL** and **PNEC** values

Human exposure

DNEL oral exposure - Consumer (mg/kg bw)

### 8.2 Exposure controls

The following information applies for the uses indicated in subsection 1.2 of the Safety Data Sheet. If available, please refer to the product information sheet for application and handling instructions. Normal use conditions are assumed for this section.

Recommended safety measures for handling the <u>undiluted</u> product:

Appropriate engineering controls: If the product is diluted by using specific dosing systems with no risk of splashes or direct skin

contact, the personal protection equipment as described in this section is not required.

Appropriate organisational controls: Avoid direct contact and/or splashes where possible. Train personnel.

REACH use scenarios considered for the undiluted product:

|  | SWED - Sector-specific<br>worker exposure<br>description | LCS | PROC    | Duration<br>(min) | ERC   |
|--|--|-----|---------|-------------------|-------|
| Manual transfer and dilution                       | AISE_SWED_PW_8a_2  | PW  | PROC 8a | 60                | ERC8a |
| Automatic application in a dedicated closed system | AISE_SWED_PW_1_1   | PW  | PROC 1  | 60                | ERC8a |

Personal protective equipment

**Eye / face protection:** Safety glasses or goggles (EN 166).

Hand protection:No special requirements under normal use conditions.Body protection:No special requirements under normal use conditions.Respiratory protection:No special requirements under normal use conditions.

**Environmental exposure controls:** No special requirements under normal use conditions.

Recommended safety measures for handling the <u>\_diluted</u> product:

Recommended maximum concentration (% w/w): 0.35

**Appropriate engineering controls:** No special requirements under normal use conditions. **Appropriate organisational controls:** No special requirements under normal use conditions.

REACH use scenarios considered for the diluted product:

|  | SWED             | LCS | PROC   | Duration | ERC   |
|--|------------------|-----|--------|----------|-------|
|  |                  |     |        | (min)    |       |
| Automatic application in a dedicated closed system | AISE_SWED_PW_1_1 | PW  | PROC 1 | 480      | ERC8a |

Personal protective equipment

Eye / face protection:
Hand protection:
Body protection:
No special requirements under normal use conditions.

Environmental exposure controls:
No special requirements under normal use conditions.

# **SECTION 9: Physical and chemical properties**

9.1 Information on basic physical and chemical properties

Information in this section refers to the product, unless it is specifically stated that substance data is listed

Method / remark

Physical State: Liquid Colour: Milky , White Odour: Product specific

Odour threshold: Not applicable

Melting point/freezing point (°C): Not determined Not relevant to classification of this product

Initial boiling point and boiling range (°C): Not determined See substance data

Substance data, boiling point

| Ingredient(s)                      | Value<br>(°C)     | Method | Atmospheric pressure (hPa) |
|------------------------------------|-------------------|--------|----------------------------|
| 6-(phthalimido)peroxyhexanoic acid | No data available |        |                            |
| HEDP sodium salts                  | No data available |        |                            |

Method / remark

Flammability (solid, gas): Not applicable to liquids Flammability (liquid): Not flammable.

Flash point (°C): Not applicable. Sustained combustion: Not applicable. (UN Manual of Tests and Criteria, section 32, L.2)

Lower and upper explosion limit/flammability limit (%): Not determined

Substance data, flammability or explosive limits, if available:

Method / remark

Autoignition temperature: 470

Decomposition temperature: > 80 (°C)

**pH**: ≈ 4 (neat)

Kinematic viscosity: ≈ 550 mPa.s (20 °C)

Solubility in / Miscibility with Water: Fully miscible

ISO 4316

DM-006, Viscosity

Substance data, solubility in water

| Ingredient(s)                      | Value<br>(g/l)    | Method | Temperature<br>(°C) |
|------------------------------------|-------------------|--------|---------------------|
| 6-(phthalimido)peroxyhexanoic acid | No data available |        |                     |
| HEDP sodium salts                  | Soluble           |        |                     |

Substance data, partition coefficient n-octanol/water (log Kow): see subsection 12.3

### Method / remark

See substance data

Substance data, vapour pressure

Vapour pressure: Not determined

| Ingredient(s)                      | Value<br>(Pa)     | Method | Temperature<br>(°C) |
|------------------------------------|-------------------|--------|---------------------|
| 6-(phthalimido)peroxyhexanoic acid | No data available |        |                     |
| HEDP sodium salts                  | No data available |        | -                   |

Method / remark

OECD 109 (EU A.3)

Relative density: ≈ 1.01 (20 °C) Relative vapour density: No data available. Not relevant to classification of this product

Particle characteristics: No data available. Not applicable to liquids.

9.2 Other information

9.2.1 Information with regard to physical hazard classes

**Explosive properties:** Not explosive. **Oxidising properties:** Not oxidising.

Weight of evidence Corrosion to metals: Not corrosive Weight of evidence

9.2.2 Other safety characteristics

No other relevant information available.

# SECTION 10: Stability and reactivity

# 10.1 Reactivity

No reactivity hazards known under normal storage and use conditions.

# 10.2 Chemical stability

Stable under normal storage and use conditions.

# 10.3 Possibility of hazardous reactions

No hazardous reactions known under normal storage and use conditions.

# 10.4 Conditions to avoid

None known under normal storage and use conditions.

# 10.5 Incompatible materials

None known under normal use conditions.

### 10.6 Hazardous decomposition products

None known under normal storage and use conditions.

# **SECTION 11: Toxicological information**

# 11.1 Information on toxicological effects

Mixture data:.

# Relevant calculated ATE(s): ATE - Oral (mg/kg): >2000

Substance data, where relevant and available, are listed below:.

# Acute toxicity

| Ingredient(s)                      | Endpoint | Value<br>(mg/kg)     | Species | Method           | Exposure time (h) | ATE<br>(mg/kg)  |
|------------------------------------|----------|----------------------|---------|------------------|-------------------|-----------------|
| 6-(phthalimido)peroxyhexanoic acid |          | No data<br>available |         |                  |                   | Not established |
|                                    |          | avallable            |         |                  |                   |                 |
| HEDP sodium salts                  | LD 50    | 1100                 | Rat     | Method not given |                   | 27000           |

Acute dermal toxicity

| Ingredient(s)                      | Result    | Species | Method           | Exposure time |
|------------------------------------|-----------|---------|------------------|---------------|
| 6-(phthalimido)peroxyhexanoic acid | Corrosive |         |                  |               |
| HEDP sodium salts                  | Irritant  |         | Method not given |               |

Respiratory tract irritation and corrosivity

| Ingredient(s)                      | Result            | Species | Method | Exposure time |
|------------------------------------|-------------------|---------|--------|---------------|
| 6-(phthalimido)peroxyhexanoic acid | No data available |         |        |               |
| HEDP sodium salts                  | No data available |         |        |               |

### Sensitisation

Sensitisation by skin contact

| Ingredient(s)                      | Result            | Species | Method | Exposure time (h) |
|------------------------------------|-------------------|---------|--------|-------------------|
| 6-(phthalimido)peroxyhexanoic acid | No data available |         |        |                   |
| HEDP sodium salts                  | No data available |         |        |                   |

Sensitisation by inhalation

| Ingredient(s)                      | Result            | Species | Method | Exposure time |
|------------------------------------|-------------------|---------|--------|---------------|
| 6-(phthalimido)peroxyhexanoic acid | No data available |         |        |               |
| HEDP sodium salts                  | No data available |         |        |               |

# CMR effects (carcinogenicity, mutagenicity and toxicity for reproduction) Mutagenicity

| Ingredient(s)                      | Result (in-vitro) | Method<br>(in-vitro) | Result (in-vivo)  | Method<br>(in-vivo) |
|------------------------------------|-------------------|----------------------|-------------------|---------------------|
| 6-(phthalimido)peroxyhexanoic acid | No data available |                      | No data available |                     |
| HEDP sodium salts                  | No data available |                      | No data available |                     |

Carcinogenicity

| Ingredient(s)                      | Effect            |
|------------------------------------|-------------------|
| 6-(phthalimido)peroxyhexanoic acid | No data available |
| HEDP sodium salts                  | No data available |

Toxicity for reproduction

| Ingredient(s)          | Endpoint | Specific effect | Value<br>(mg/kg bw/d) | Species | Method | Exposure time | Remarks and other effects reported |
|------------------------|----------|-----------------|-----------------------|---------|--------|---------------|------------------------------------|
| 6-(phthalimido)peroxyh |          |                 | No data               |         |        |               |                                    |
| exanoic acid           |          |                 | available             |         |        |               |                                    |
| HEDP sodium salts      |          |                 | No data               |         |        |               |                                    |
|                        |          |                 | available             |         |        |               |                                    |

Repeated dose toxicity
Sub-acute or sub-chronic oral toxicity

| Ingredient(s)                      | Endpoint | Value<br>(mg/kg bw/d) | Species | Method | Exposure time (days) | Specific effects and organs affected |
|------------------------------------|----------|-----------------------|---------|--------|----------------------|--------------------------------------|
| 6-(phthalimido)peroxyhexanoic acid |          | No data<br>available  |         |        |                      |                                      |
| HEDP sodium salts                  |          | No data<br>available  |         |        |                      |                                      |

Sub-chronic dermal toxicity

| Ingredient(s)                      | Endpoint | Value<br>(mg/kg bw/d) | Species | Method | Exposure time (days) | Specific effects and organs affected |
|------------------------------------|----------|-----------------------|---------|--------|----------------------|--------------------------------------|
| 6-(phthalimido)peroxyhexanoic acid |          | No data               |         |        |                      |                                      |
|                                    |          | available             |         |        |                      |                                      |
| HEDP sodium salts                  |          | No data               |         |        |                      |                                      |
|                                    |          | available             |         |        |                      |                                      |

Sub-chronic inhalation toxicity

| Ingredient(s)                      | Endpoint | Value<br>(mg/kg bw/d) | Species | Method | Exposure time (days) | Specific effects and organs affected |
|------------------------------------|----------|-----------------------|---------|--------|----------------------|--------------------------------------|
| 6-(phthalimido)peroxyhexanoic acid |          | No data               |         |        |                      |                                      |
|                                    |          | available             |         |        |                      |                                      |
| HEDP sodium salts                  |          | No data               |         |        |                      |                                      |
|                                    |          | available             |         |        |                      |                                      |

Chronic toxicity

| Critoric toxicity      |          |          |              |         |        |          |                      |        |
|------------------------|----------|----------|--------------|---------|--------|----------|----------------------|--------|
| Ingredient(s)          | Exposure | Endpoint | Value        | Species | Method | Exposure | Specific effects and | Remark |
|                        | route    |          | (mg/kg bw/d) |         |        | time     | organs affected      |        |
| 6-(phthalimido)peroxyh |          |          | No data      |         |        |          |                      |        |
| exanoic acid           |          |          | available    |         |        |          |                      |        |
| HEDP sodium salts      |          |          | No data      |         |        |          |                      |        |
|                        |          |          | available    |         |        |          |                      |        |

STOT-single exposure

| 5 TO 1-single exposure             |                   |
|------------------------------------|-------------------|
| Ingredient(s)                      | Affected organ(s) |
| 6-(phthalimido)peroxyhexanoic acid | No data available |
| HEDP sodium salts                  | No data available |

STOT-repeated exposure

| OTOT Tepedica exposure             |                   |
|------------------------------------|-------------------|
| Ingredient(s)                      | Affected organ(s) |
| 6-(phthalimido)peroxyhexanoic acid | No data available |
| HEDP sodium salts                  | No data available |

# Aspiration hazard

Substances with an aspiration hazard (H304), if any, are listed in section 3.

# Potential adverse health effects and symptoms

Effects and symptoms related to the product, if any, are listed in subsection 4.2.

### 11.2 Information on other hazards

11.2.1 Endocrine disrupting properties
Endocrine disrupting properties - Human data, if available:

# 11.2.2 Other information

No other relevant information available.

# **SECTION 12: Ecological information**

# 12.1 Toxicity

No data is available on the mixture.

Substance data, where relevant and available, are listed below:

# Aquatic short-term toxicity

Aquatic short-term toxicity - fish

| Ingredient(s)                      | Endpoint | Value<br>(mg/l)      | Species                | Method           | Exposure time (h) |
|------------------------------------|----------|----------------------|------------------------|------------------|-------------------|
| 6-(phthalimido)peroxyhexanoic acid |          | No data<br>available |                        |                  |                   |
| HEDP sodium salts                  | LC 50    | > 100                | Oncorhynchus<br>mykiss | Method not given | 96                |

Aquatic short-term toxicity - crustacea

| Ingredient(s)                      | Endpoint | Value<br>(mg/l)      | Species                 | Method           | Exposure time (h) |
|------------------------------------|----------|----------------------|-------------------------|------------------|-------------------|
| 6-(phthalimido)peroxyhexanoic acid |          | No data<br>available |                         |                  |                   |
| HEDP sodium salts                  | EC 50    | > 170                | Daphnia<br>magna Straus | Method not given | 96                |

Aquatic short-term toxicity - algae

| Ingredient(s)                      | Endpoint | Value<br>(mg/l)      | Species | Method | Exposure time (h) |
|------------------------------------|----------|----------------------|---------|--------|-------------------|
| 6-(phthalimido)peroxyhexanoic acid |          | No data<br>available |         |        |                   |
| HEDP sodium salts                  |          | No data<br>available |         |        |                   |

Aquatic short-term toxicity - marine species

| Ingredient(s)                      | Endpoint | Value<br>(mg/l)      | Species | Method | Exposure time (days) |
|------------------------------------|----------|----------------------|---------|--------|----------------------|
| 6-(phthalimido)peroxyhexanoic acid |          | No data<br>available |         |        |                      |
| HEDP sodium salts                  |          | No data<br>available |         |        |                      |

Impact on sewage plants - toxicity to bacteria

| Ingredient(s)                      | Endpoint | Value<br>(mg/l) | Inoculum | Method | Exposure time |
|------------------------------------|----------|-----------------|----------|--------|---------------|
| 6-(phthalimido)peroxyhexanoic acid |          | No data         |          |        |               |
|                                    |          | available       |          |        |               |
| HEDP sodium salts                  |          | No data         |          |        |               |
|                                    |          | available       |          |        |               |

# Aquatic long-term toxicity

| Aquatic long-term toxicity - fish  |          |           |         |        |          |                  |

Aquatic toxicity to other aquatic benthic organisms, including sediment-dwelling organisms, if available:

| Ingredient(s)                      | Endpoint | Value                  | Species | Method | Exposure time (days) | Effects observed |
|------------------------------------|----------|------------------------|---------|--------|----------------------|------------------|
|                                    |          | (mg/kg dw<br>sediment) |         |        | uille (days)         |                  |
| 6-(phthalimido)peroxyhexanoic acid |          | No data                |         |        |                      |                  |
|                                    |          | available              |         |        |                      |                  |
| HEDP sodium salts                  |          | No data                |         |        |                      |                  |
|                                    |          | available              |         |        |                      |                  |

### Terrestrial toxicity

Terrestrial toxicity - soil invertebrates, including earthworms, if available:

Terrestrial toxicity - plants, if available:

Terrestrial toxicity - birds, if available:

Terrestrial toxicity - beneficial insects, if available:

Terrestrial toxicity - soil bacteria, if available:

# 12.2 Persistence and degradability

# Abiotic degradation

Abiotic degradation - photodegradation in air, if available:

Abiotic degradation - hydrolysis, if available:

Abiotic degradation - other processes, if available:

### Biodegradation

Ready biodegradability - aerobic conditions

| Ingredient(s)                      | Inoculum                 | Analytical method | DT 50 | Method      | Evaluation                 |
|------------------------------------|--------------------------|-------------------|-------|-------------|----------------------------|
| 6-(phthalimido)peroxyhexanoic acid |                          |                   |       |             | Readily biodegradable      |
| HEDP sodium salts                  | Activated sludge, aerobe | DOC reduction     |       | Read across | Not readily biodegradable. |

Ready biodegradability - anaerobic and marine conditions, if available:

Degradation in relevant environmental compartments, if available:

# 12.3 Bioaccumulative potential

Partition coefficient n-octanol/water (log Kow)

| Ingredient(s)                      | Value             | Method | Evaluation | Remark |
|------------------------------------|-------------------|--------|------------|--------|
| 6-(phthalimido)peroxyhexanoic acid | No data available |        |            |        |
| HEDP sodium salts                  | No data available |        |            |        |

Bioconcentration factor (BCF)

| Ingredient(s)          | Value             | Species | Method | Evaluation | Remark |
|------------------------|-------------------|---------|--------|------------|--------|
| 6-(phthalimido)peroxyl | No data available |         |        |            |        |
| exanoic acid           |                   |         |        |            |        |

# 12.5 Results of PBT and vPvB assessment

Substances that fulfill the criteria for PBT/vPvB, if any, are listed in section 3.

**12.6 Endocrine disrupting properties**Endocrine disrupting properties - Environmental effects, if available:

### 12.7 Other adverse effects

No other adverse effects known.

# SECTION 13: Disposal considerations

13.1 Waste treatment methods

**European Waste Catalogue:** 

Waste from residues / unused The concentrated contents or contaminated packaging should be disposed of by a certified handler

products:

or according to the site permit. Release of waste to sewers is discouraged. The cleaned packaging

material is suitable for energy recovery or recycling in line with local legislation.

16 09 03\* - peroxides, for example hydrogen peroxide.

**Empty packaging** 

**Recommendation:** Dispose of observing national or local regulations.

Suitable cleaning agents: Water, if necessary with cleaning agent.

# **SECTION 14: Transport information**

## Land transport (ADR/RID), Sea transport (IMDG), Air transport (ICAO-TI / IATA-DGR)

14.1 UN number: Non-dangerous goods

**14.2 UN proper shipping name:** Non-dangerous goods **14.3 Transport hazard class(es):** Non-dangerous goods

14.4 Packing group: Non-dangerous goods

14.5 Environmental hazards: Non-dangerous goods14.6 Special precautions for user: Non-dangerous goods

14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code: Non-dangerous goods

# **SECTION 15: Regulatory information**

# 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

# EU regulations:

- Regulation (EC) No. 1907/2006 REACH
- Regulation (EC) No 1272/2008 CLP
- Regulation (EC) No. 648/2004 Detergents regulation
- substances identified as having endocrine disrupting properties in accordance with the criteria set out in Delegated Regulation (EU) 2017/2100 or Regulation (EU) 2018/605

Authorisations or restrictions (Regulation (EC) No 1907/2006, Title VII respectively Title VIII): Not applicable.

# Ingredients according to EC Detergents Regulation 648/2004

oxygen-based bleaching agents 15 - 30 %

Seveso - Classification: Not classified

### 15.2 Chemical safety assessment

A chemical safety assessment has not been carried out on the mixture

# **SECTION 16: Other information**

The information in this document is based on our best present knowledge. However, it does not constitute a guarantee for any specific product features and does not establish a legally binding contract

**SDS code:** MSDS3175 **Version:** 09.2 **Revision:** 2021-03-28

# Reason for revision:

Overall design adjusted in accordance with Amendment 2020/878, Annex II of Regulation (EC) No 1907/2006, This data sheet contains changes from the previous version in section(s):, 3, 8, 9, 11, 12, 15, 16

### Classification procedure

The classification of the mixture is in general based on calculation methods using substance data, as required by Regulation (EC) No 1272/2008. If for certain classifications data on the mixture is available or for example bridging principles or weight of evidence can be used for

classification, this will be indicated in the relevant sections of the Safety Data Sheet. See section 9 for physical chemical properties, section 11 for toxicological information and section 12 for ecological information.

# Full text of the H and EUH phrases mentioned in section 3:

- H242 Heating may cause a fire.
  H290 May be corrosive to metals.
- H302 Harmful if swallowed.
- H318 Causes serious eye damage.H319 Causes serious eye irritation.
- H400 Very toxic to aquatic life.

### Abbreviations and acronyms:

- AISE The international Association for Soaps, Detergents and Maintenance Products
   ATE Acute Toxicity Estimate
   DNEL Derived No Effect Limit
   EC50 effective concentration, 50%

- ERC Environmental release categories
- EUH CLP Specific hazard statement
- LC50 Lethal Concentration, 50% / Median Lethal Concentration
- LCS Life cycle stage
   LD50 Lethal Dose, 50% / Median Lethal dose
- NOAEL No observed adverse effect level
- NOEL No observed effect level
   OECD Organization for Economic Cooperation and Development
   PBT Persistent, Bioaccumulative and Toxic
- PNEC Predicted No Effect Concentration
   PROC Process categories
- REACH number REACH registration number, without supplier specific part
- vPvB very Persistent and very Bioaccumulative

**End of Safety Data Sheet**
